Attached is a revised version of the RA briefing paper. For those of you that reviewed yesterday's version, I made additional edits to the following sections:

- Key outstanding issues (#4 under Context)
- Critical messages (items #1, 2)
- Components of FDEP's draft assumption package not yet shared with EPA (under Considerations)

Thanks Phil, I particularly agree about putting more emphasis on the problem with getting a draft package at the end of next week and a formal submission on Sep 1. Not sure yet about specific meeting dates, but left a message with Kristen yesterday.

A few quick thoughts. I will provide some tweaks when I get to the office.

First a related question. Where are we on the Tallahassee trip?

I would consider adding some details to the unknown dates on certain action. For example, they had indicated they did not expect to share the balance of their package until 8/31. That creates a problem with a 9/1 package submittal. I had put that in the message to Mary at Jeaneanne's request, but not sure how far that got.

They also had indicated they may not go to nonr for 3 weeks. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

On the esa issue, we heard more than once yesterday the stakeholders were still trying to find an alternative path. Clearly Fdep is coordinating with them.
